in Profarm only

i Instructions for Detailer

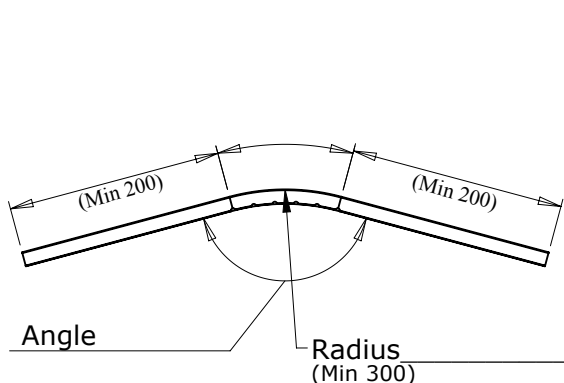

- 1) Select the required Colour, thickness and profile type.
- 2) Fill in the dimensions, angles and radius on the relevant profile along with the quantity of each hand required and the overall sheet length.

Handing of sheets

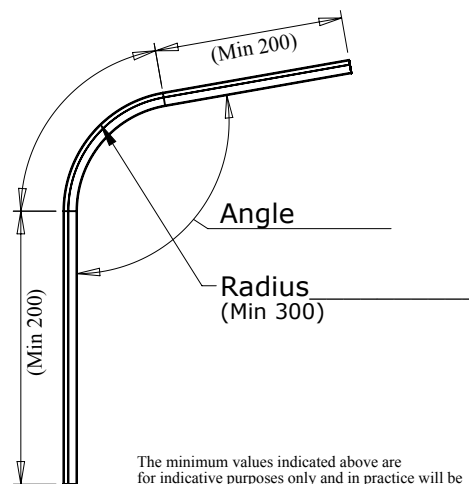

The required direction of lay must be specified when ordering as cranked sheets with uneven leg lengths can be laid in one direction only. Select from the options shown below.

CRANKED RIDGE (Fill in details below)

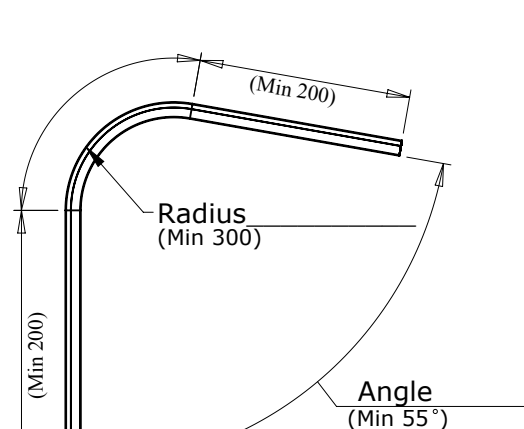

CRANKED EAVES (Fill in details below)

The minimum values indicated above are for indicative purposes only and in practice will be determined by factors such as sheet length, geometry and material thickness. Check with us before detailing/ordering for job specific information

CRANKED MONORIDGE (Fill in details below)

The minimum values indicated above are for indicative purposes only and in practice will be determined by factors such as sheet length, geometry and material thickness. Check with us before detailing/ordering for job specific information
